- Live Web Conferencing groups
- Calendar with scheduling
- Digital documents repository and sharing
- Collaborative Wikis
- Storage and replay of recorded Web Conference sessions
- And much more!

## COMMENTS FROM OUR REGISTERED USERS

"Cure4Kids' Web Conferences help us to understand the situation of other patients and gain experience through information exchange. It is a great way to connect to people around the world."

"Presentations and case discussions are very informative. They help all participants to update new medical information, technology, solve the problems and significantly improve the medical care of children."

**St. Jude Cure4Kids** is a collaboration platform for sustaining Communities of Practice.

More than 200 international working groups meet regularly for clinical consultation, training, share knowledge, research, and to hold live discussions.

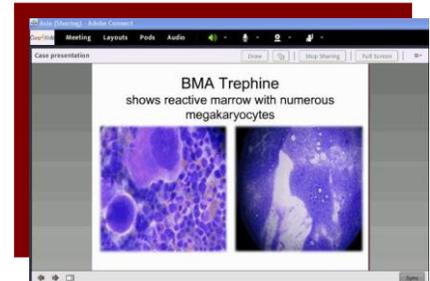

From your desktop or mobile device, you can conduct online meetings, engage in group collaboration, and discuss difficult patient cases or protocols. You can upload presentations, review documents; share your desktop for everyone to see. *It is like having everyone in the same room!*

It is simple, secure and at no cost to our members.

## Interested in creating a Cure4Kids Working Group?

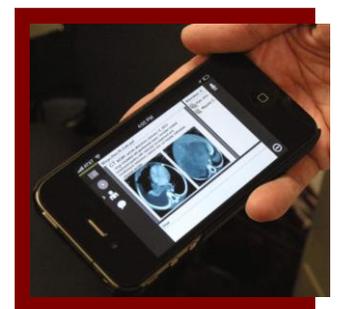

Please contact us at [help@cure4kids.org](mailto:help@cure4kids.org). Provide the following information:

- Name of your working group
- Purpose of meetings
- Who will be leading your group?
- Name of an Administrative Contact (the person who will be coordinating the meetings)

## Requirements

- Register to St. Jude Cure4kids (may take several days for approval): [www.Cure4Kids.org](http://www.Cure4Kids.org) Or at this link: <http://www.Cure4Kids.org/register>
- **You will need a set of speakers to hear the audio, a microphone to ask questions and to be connected to the internet over a "broadband" connection of at least 128 Kbs (kilobits per second).**
- Click [here](#) to conduct a test to ensure your computer is set up with the appropriate tools to participate in the Cure4Kids Web conferencing system.
- This process is supported by most computers and Web browsers.
- Collaborate on the go! Attend St. Jude Cure4Kids Live Meetings on a mobile device wherever you are. Many smart phones and tablet devices are capable of joining Cure4Kids Live Meetings.

# Cure4Kids®

The **Department of Global Pediatric Medicine** provides humanitarian assistance to many countries to help improve the treatment of children with catastrophic diseases.

**St. Jude Cure4Kids** is the leading education and collaboration web site dedicated to the support and care of children with cancer and other catastrophic diseases worldwide. All content and services are provided at no cost to the users.
